

Dear Child of this Culture community partners and family,

In December 2019, the International Olympic Committee (IOC) announced Breaking to debut in the 2024 Paris Olympics! This has caused deep discussion about what this means for the breaking community. We are looking for your support towards our most recent goal to become the National Governing Body (NGB) for Breaking in the U.S. If approved, this means we will lead the U.S. pipeline for breakers to go for the gold at the Olympics. We believe we are best suited for this task.

Child of this Culture Foundation (COTC FND) is a 501(c)3 non-for-profit-corporation organized for charitable and educational purposes based out of Orlando, Florida, USA and currently seeks recognition from the United States Olympic Paralympic Committee (USOPC) to become the NGB for Breaking in the U.S. Our mission is to foster a positive image of Hip Hop culture through supporting and growing the culture and empowering future generations of champions. Since 2012, our organization has served the local, regional, and international Hip Hop community through engagement events, competitions, developing resources for the community, and educating the general public on Hip Hop's culture. Due to our long-standing mission and track record for community involvement and empowerment, COTC is uniquely positioned to bring a community-driven approach to selecting the most qualified breakers to represent the US. We seek to unite our fragmented community, promote, develop, and elevate Breaking in the U.S. towards achieving permanent membership in the Olympic family.

If you believe COTC has the capability to achieve these goals, please support by signing below, scan and return by email to **childofthisculture@gmail.com**. I support the Child of this Culture Foundation, Inc. to be recognized as the U.S. National Governing Body for Breaking.
